VOL. LIII. OAKLAND, CALIFORNIA, FRIDAY EVENING, SEPTEMBER 21, 1900. NO. 224

BATTLE IS NOW RAGING HOTLY AT THE PEITANG FORTS.

BERLIN Sept. 21.—A dispatch received here from Taku dated today says: "Yesterday evening the Peitang forts opened fire on the Russian infantry camp, wounding twenty-five men. Since early this morning a German howitzer battery has been shelling the forts and the town."

PARIS, Sept. 21.—The French Consul at Canton telegraphs under date of Thursday, September 20, that disorders have broken out at Suntai near Canton. Several villages have been destroyed and others are besieged. The missionaries succeeded in escaping. The first batch of troops sent by the Viceroy proved powerless to subdue the disorder and the foreign Consuls made a most urgent request for the dispatch of a larger body of soldiers. The Chancellor of a French Consulate and the French gunboat *Avalanche* will accompany the force.

ACCUSATIONS MADE BY THE HOWE FAMILY. Grave Charges Against Pardee.

These Are Documents
Suppressed by Police
Commission.

The hearing of the charges against Policeman Thomas Pardee was resumed this morning at 10:55 o'clock. Both Fred F. Howe and his sister have filed charges against the officer and as these charges are different in their nature, they must be accorded a separate hearing.

Great interest has been manifested as to the exact nature of these charges, the commission having refused to make them public. Today THE TRIBUNE can satisfy this interest and presents an abstract of the charges as sworn to by Mrs. Howe and her brother.

The allegations made by Mrs. Howe are as follows:

"On Saturday night, in the first week in August, my gardener sent Officer Pardee to my house. I asked him where Officer Kingsbury was, and he told me that he had taken his place. I said to him that he had taken his place. He had come to arrest him. I told him that my brother was not drunk, and must not be arrested. I told him I wanted a special to come and stay for the night, to keep my brother from going out. He insisted on arresting my brother saying that was the only way to beat him, but he said if I made it an object he would not arrest him which I promised to do. I paid him \$1.00 then, and he went and hung up for a special officer.

"From that night he has been persecuting and calling on me at all hours, even as late as 2 o'clock in the morning. After I have retired he has had my servant come to my room and notify me that he would remain until he saw me. In fact he has had me so frightened that life was getting unbearable.

"I asked him why Officer Kingsbury was changed, and he said that it was a crazy streak of the chief. The chief wanted his men to get acquainted with the city, and did not allow one policeman to stay in one place more than 40 or 50 days, and he hoped, if everything went right, they would have a chief that would have some sense and not get the big end.

"On August 12 my brother went to Santa Cruz mountains. I told Pardee that my brother had gone away, and that I wished he would not call again. He came every night, staying on one occasion two hours. A lady friend was here, and he told her he wanted to see me alone. He told me he felt there would be trouble if my house that night and he wanted to witness the place. He would come in without clothes, and would do as well as a special. I got frightened and asked the lady visitor to tell him that she was going to stay all night with me. At 2 a. m. he rang my bell again and asked if the lady was with me.

"On the following night he called and suggested my giving him \$25 and he promised that in four weeks my brother would never drink again. He has already made arrangements at a private asylum on Sutter street in San Francisco. I told him I would never do anything of the kind and that he must stop annoying me. He then asked for more money, saying he had spent it and money in this affair. Altogether I have paid him \$15.

"After I had refused him the \$25 he suggested that I hire a housekeeper that he knew. This I objected to, but at last through fear I consented to hire a woman that he recommended by the name of Anna Elsworth. She came to work for me on September 1st. On the following Tuesday night Officer Pardee called and told me that I must go to the country for a vacation; that I needed a rest, and that Mrs. Elsworth and himself would look after my house. I told him I was not going on a vacation and did not want him to trouble me any further. Then he asked me to see Mrs. Elsworth. I went to call her and found her in my brother's room. I informed her Pardee was down stairs and wanted to see her. She said she did not want to see him. He had annoyed and worried her for three years, and she was not willing to do with him, as he had a wife and children. I told her to go down stairs and tell him so, but she said she was afraid he would kill her, and would I please tell him she had retired. He got furious, saying he had heard her talking and knew she was in my brother's room. He started to go upstairs, but I

(Continued on Page 2)

FOUR NEGROES ARE STRUNG UP. Reign of Terror in Louisiana and Other Tragedies are Expected.

NEW ORLEANS, Sept. 21.—A reign of terror broke out in Bloody Tangipah Parish again last night, when four negroes were hanged after the jail in the village of Poncechartrou had been broken open and the prisoners suspected of robbing the family of Henry Holteiter had been taken from their cells.

Mrs. Louise Holteiter, the wife, had been choked and frightened by the black ruffians so unmercifully that she has lost her mind.

There were fourteen colored suspects in the jail. At 9 o'clock last night a committee of white citizens called on Sheriff Nix to give up the colored prisoners, but he refused. Axes were brought and the jail immediately broken open. Four of the suspects were hanged.

ATTORNEY WILL GET THE ESTATE

Martin Assigns
His Interest
to Nagle.

I. M. Martin, son of the late Dr. William Martin, who contested the will of his stepmother and recently effected a compromise, will not get such a great slice out of the estate after all. An agreement between the contestant and Attorney Charles G. Nagle was filed today by the terms of which Martin practically assigns all his interest in the estate to the lawyer.

The document is dated February 20, 1900. It transfers one-half of Martin's interest in the estate of his father, one-half of his interest in the estate of his stepmother and one-half of all that may be secured through the suit recently compromised. It is stated that the conveyances are made in payment of Nagle's services in the matters referred to.

It is also agreed that if the attorney advances any money or other expenses in connection with the cases, Martin shall reimburse him. The final clause of the agreement reads:

"It is further agreed that any money which said C. G. Nagle may loan or advance to said I. M. Martin shall be paid out of the half of said I. M. Martin, and said I. M. Martin hereby gives and conveys to said C. G. Nagle the remaining half as security for said money loaned or which may hereafter be loaned to said I. M. Martin."

A. W. Martin, brother of I. W. Martin, has assigned his interest in the estate to J. d'Amontagne. The consideration named is \$5.

ORATOR TOWNE IN CALIFORNIA

Associated Press Dispatches by The Tribune's Special Leased Wire STOCKTON, Cal., Sept. 21.—Charles A. Towne, the renowned orator who is delivering speeches throughout the West on behalf of Bryan and Stevenson, arrived in Stockton on the noon train today amidst the booming of explosives and the music of a band. The democratic orator was met at the depot by a delegation of citizens. At 1:01 a three-minute speech by Mr. Towne from the platform of the car was loudly cheered. At Stockton he was met at the depot by a delegation of citizens in carriages headed by a band and escorted to the hotel, where he partook of lunch, after which he addressed a large throng on the plaza. During the afternoon he visited the races and left for San Jose on the 3:40 train.

to a tree about two blocks away after being made to confess. They were Isaiah Rogers, aged 18; Nathaniel Bowman, 47; Charles Elliott, 20, and George Bickham, 20.

Their bodies swung until morning, when they were cut down and turned over to the coroner. The coroner's jury returned the verdict "hanged by unknown hands."

Mayor Jackson is doing all he can to restore order, but is making slow progress, as committees of citizens are scouring the parish, arresting all negroes they can get their hands on. These are being crowded into the little jail at Poncechartrou and a wholesale hanging is feared.

The better element of the colored population is fleeing to the churches, where the time is being spent in prayer.

UTAH IS STILL SHY A SENATOR

Appointment is
Declined By
Powers.

Associated Press Dispatches by The Tribune's Special Leased Wire SALT LAKE, Utah, Sept. 21.—The following signed statement has been given to the Associated Press by Judge O. W. Powers, who was recently appointed United States Senator from Utah by Acting Governor Nebecker:

"To the Associated Press: While there can be no question that Senator Nebecker was Governor in the absence of Governor Wells and Secretary Hammond from the State, and that he had power to appoint a United States Senator, the precedent in the Quay case makes it clear that his appointment would not be seated. Our State Democratic chairman, Mr. Burton, is of the opinion that I can be of more service to the party on the electoral ticket than in making a contest. In addition I have no desire to draw the salary pending a contest when I am convinced in advance that the seat would be refused. Hence, unless the National Committee shall desire me to take action, I shall not accept the appointment. At first it appeared to me that I should make the fight, but my sober judgment is to the contrary. I appreciate Governor Nebecker's confidence and shall always cherish the compliment.

"O. W. POWERS."

BIG FLOOD AT FORT WORTH

FORT WORTH, Texas, Sept. 21.—Trinity River at this point has risen twenty feet since last night on account of a twelve hours' rain, inundating the river bottom in a portion of the city. Hundreds of families have been driven out. Three persons are reported drowned. The water is spreading over half a mile of country. A relief corps is at work in the bottom, carrying the people to places of safety.

DALLAS, Texas, Sept. 21.—The fiercest wind and rain storm known in this part of Texas in years prevailed last night. Streets and basements were flooded. Cotton suffered extensively. Trinity River is rising a foot an hour at Dallas.

MANHANDLED BY STRIKING COAL MINERS Violent Scenes are Being Enacted.

Sheriff of Schuylkill
Summoned to Quell
Riots.

Associated Press Dispatches by The Tribune's Special Leased Wire

POTTSVILLE, Pa., Sept. 21.—West Shenandoah, Shenandoah, Indian Ridge, Kohunoor and Taney Run collieries, belonging to the Philadelphia and Reading Coal Company, and Keheley Run of the Thomas Company, all in the Shenandoah district, are shut down tight today. The men at the Kohunoor and Keheley Run works were driven away by striking Lithuanians and Poles armed with clubs and stones. They smashed windows and other mine property. It was with difficulty that deputies prevented the strikers from entering the slope at the Keheley Run. After the men quit the strikers retired.

A trolley car was held up and eleven men were roughly handled. Some of them, who were on their way to work, were thrown out of the door. Chief Burgess Brown of Shenandoah, in rescuing his son from the hands of the strikers, was himself beaten.

The strikers policed every path and road to the colliery and by their threats intimidated workmen, thus inducing them to return to their homes.

Much excitement exists. Daniel Christian, Chief of the Coal and Iron Police, stated this morning that his force is unequal to the task of guarding the collieries and that Sheriff Toole of Schuylkill county has been appealed to for assistance.

ALLENTON, Pa., Sept. 21.—Sheriff John Toole of Schuylkill county came here today to attend the fair, but was intercepted by a telegram summoning him home because of the coal mine riots at Shenandoah. He left on a special train.

SCRANTON, Pa., Sept. 21.—The mining situation in the Lackawanna Valley shows no change today. The tie-up remains practically complete. Not over five washeries owned by coal companies are working. The others, operated by individuals, are shut down pending an agreement with the Executive Board to pay the scale demanded. Their working, however, will even then be conceded only on positive conditions, pending the settlement of the entire strike question.

Thus far there has not been the least indication of trouble anywhere in this whole valley. What the switchmen and railroad trainmen will do now is the interesting question of the day. Frank Hawley, grand master of the former, is here at the request of the local switchmen's union, which meets this evening, and P. H. Morrissey of the Brotherhood of Trainmen is expected to arrive tomorrow to confer with the Grievance Committee of the trainmen at a meeting on Monday. Thus far sixty-six train crews have been laid off on the

(Continued on Page 2)

MURDER MARKS THE BIG STRIKE. Mine Watchman Fatally Shot By an Unknown Man Who Escapes.

SHAMOKIN, Pa., Sept. 21.—Evan Davis, a watchman at Hickory Ridge colliery, was shot and probably fatally wounded this morning by an unknown person, as he was patrolling the beat. He fired six shots at his fleeing assailant, but none of the bullets apparently took effect.

The colliery is in an isolated place and Davis was compelled to crawl a mile on his hands and knees to procure aid.

The strike situation is unchanged here. Everything is quiet and the collieries still remain closed down. The strikers were encouraged by the large number of Schuylkill county miners going out this morning.

STEAMERS BURNED AT ST. LOUIS.

Two Lives Lost
in a Fierce
Blaze.

Associated Press Dispatches by The Tribune's Special Leased Wire

ST. LOUIS, Sept. 21.—In the destruction at an early hour today of the steamer *War Eagle* and the steamer *Carrier*, at the foot of Locust street, one man, Joseph Schultz, a clerk on the *War Eagle*, was burned to death, and other is missing, and a third, possibly injured, and property valued at nearly \$100,000 was destroyed. The wharf situation will now adjust itself. Material damaged and the cargo of the *Carrier*, consisting of wheat and other produce, was totally burned.

Twenty passengers, about half the number women, were asleep on the *Carrier* when the fire started and those persons on both boats barely had time to run from the boats to the levee before the flames enveloped the steamers. The fire started at 4 o'clock in the afternoon at the firemen of the *War Eagle*, supposedly from a spark from a pipe or a cigarette. The flames soon made their way to the *Carrier* and both boats were burned to the water's edge within half an hour.

The *War Eagle* was valued at \$60,000 and was not insured.

The *Carrier*, a much smaller boat, was worth \$7,000, insured.

SEARCHLIGHT THE WINNER.

Associated Press Dispatches by The Tribune's Special Leased Wire INDIANAPOLIS, Sept. 21.—Searchlight won the first heat of the match race with Anaconda at the State Fair grounds here this afternoon. The time was 2:12. The track was muddy and a stiff wind was blowing.

Searchlight won the second heat and the race in 2:14. Anaconda was killed, and was not insured.

FIRST TRAIN HAS ENTERED GALVESTON.

Wonderful Feat
of Bridge
Building.

Associated Press Dispatches by The Tribune's Special Leased Wire

GALVESTON, Texas, Sept. 21.—The first train arrived here at 6:15 this morning. Trains are coming and going slowly but steadily. More people are arriving than departing. The building of a bridge two and one-half miles long was one of the most remarkable achievements of construction work in the history of the world. The freight situation will now adjust itself. Material damaged and the cargo of the *Carrier*, consisting of wheat and other produce, was totally burned.

TOPEKA, Kan., Sept. 21.—The Santa Fe passenger department announced that the through passenger service to and from Galveston was resumed today and that trains would be run on usual schedule time.

NOTES ARE READY FOR THE POWERS

Our Decision Is
Reached as
to China.

It Will Not Be Made
Public Before
Tomorrow.

Associated Press Dispatches by The Tribune's Special Leased Wire

WASHINGTON, Sept. 21.—A Cabinet meeting was held today. Secretary Long and Hitchcock and Attorney General Griggs being present. At its conclusion the following official announcement was made:

"The Government has reached a determination relative to the Chinese situation. It will be made public as soon as it can be communicated to the powers interested."

It is definitely known that three notes have been prepared, one in reply to the German proposition, one bearing upon the last Russian proposal and one relative to the communication from the Chinese government, delivered by Minister Wu, asking that this Government clothe Minister Conger with power to treat with Prince Ching in peace negotiations. These several communications, which set forth the position of the

TURNED TABLES ON HIS WIFE.

John O'Neil Euchres
His Spouse in the
Divorce Court.

A state of affairs a little out of the usual run has developed in the O'Neil divorce suit. Myrtle O'Neil sued John for a legal separation, alleging that her husband was cruel and even different kinds of an undutiful spouse. O'Neil smarted under the accusation, but when he recovered from the shock he determined to put up as good a fight as he knew how. He was not particular about keeping his wife, but concluded that if there were to be any divorce in the O'Neil family he wanted the decree granted to his side of the house.

Securing the services of an attorney he had reduced to legal verbiage all the unpleasant things about his wife that he could call to mind. This was put in the form of an answer and cross-complaint to her charges.

It is evident that O'Neil had the best of the argument, for his counter-allegations. She never made another move in the matter and today a default judgment was taken against her. O'Neil will now get the divorce instead of his wife, unless she unforeseen thing happens to clog the wheels of the legal machinery.

NEWARK

NEWARK, Sept. 21.—Will Styles of Stockton is visiting his relatives at the home of J. Ross.

It is said that there are to be long excursions later to accommodate those who wish to attend the circus in San Jose, on the San. The snail race is being given, and many people are expected to attend the circus.

The dance and entertainment to be given by the Newark band promises to be successful from every point of view. Local talent will be assisted by outside, and a pleasant evening awaits all who attend.

Miss Lovejoy has returned from visiting friends in Oakland.

Miss Stella Graham is in Pleasanton for a few weeks' stay.

Miss Kitty Beach has been in San Francisco, the guest of her aunt, Mrs. John Legoria. Miss Beach was one of a delightful party given by Mrs. Legoria during her stay. She returned to Newark Monday evening.

Frank Styles has gone to Stockton for

COME JUST TO SEE

IN THE FIELD OF SPORT.

The annual fair of the Golden Gate Association begins tomorrow on the Oakland track at Emeryville. A new rule has been adopted calling the first event at 1 o'clock instead of 2 in order to give those who come across the bay an opportunity to return at a reasonable hour. The boat and railroad service will be the same that prevails during the regular racing season.

J. W. Brooks, handicapper of the California Jockey Club, has consented to condition the running race, and has hopes of bringing together the best performers at Sacramento in a seven-day long handicap on the opening day. The majority of the jockeys who figured at the State Fair meeting will also be on deck, besides Walsh, who has just arrived from Chicago. It has been given out that no suspended jockeys will be allowed to ride at Oakland, as was the case at Sacramento. There will also be one or more harness races during the meeting for purses of 500.

The six directors will hang up \$2,000 each day in purses—\$14,000 for the meeting. No purses will be less than \$250, and free entrance will be allowed in every race. Entries for Saturday, the opening day, close today at 1 o'clock with J. W. Brooks, at his office on the California Jockey Club track, Emeryville. Badges for owners, trainers, jockeys and groomers can now be obtained from Mr. Brooks at the same place.

President Henry J. Crocker of the San Francisco and San Mateo Agricultural Association has given a handsome cup, valued at \$500, to be awarded to the horse-man making the best time for a mile over the Tanforan track during the second week of the fair. The harness brigade will occupy the last six days of the exposition, and on Wednesday a special race will be arranged to meet the challenge of the Tanforan trophy. The Tanforan track is in capital shape for last time, and all the horse-men are loud in their praises of it. M. F. Tarpey will act as referee and judge during the harness events, and Major J. L. Rathbone and Joseph Cairn Simpson will be his associates. Edwin F. Smith will do the starting. His long experience on the turf qualifies him for the task.

CHICAGO, Sept. 21.—The American Turf Congress, which has been in session here, adjourned after deciding turf congress stakes for next season, as has been done this year. The next meeting will be held in Chicago. It was announced that the membership of four associations in the Congress had expired and would not be renewed. They are:

The Kentucky Racing Association, Lexington; the Western Turf Association, San Francisco; the Cincinnati Live Stock Show and Driving Park Association, Cincinnati; and the Pacific Coast Jockey Club, San Francisco. The following officers were elected: Chicago: president, Robert Auld, St. Louis; secretary, E. C. Hopper, Covington, Ky.; treasurer, E. L. Lee, Covington, Ky.

Renno dropped dead while being led from the paddock to his stall after finishing fourth in the exceptional race at Harlem. Rupture of a blood vessel is supposed to have caused death.

Lieutenant Gibson will never race again. The great 3-year-old, who was the short favorite in the American Derby, and for whom owner Charles Head Smith refused an offer of \$20,000, has broken down again, and Mr. Smith says that the once speedy colt will be retired to the stud as soon as he is able to walk far enough to permit of his being taken to a car for shipment to Lexington, Ky.

NEW YORK, Sept. 21.—William C. Whitney's horses in training will winter in Aiken, S. C., under the care of John E. Madden, who will dispose of the horses he now is raising. Practically all his much has been decided on. Never has broken down again, and Mr. Smith says that the once speedy colt will be retired to the stud as soon as he is able to walk far enough to permit of his being taken to a car for shipment to Lexington, Ky.

Whitney's horses in training will winter in Aiken, S. C., under the care of John E. Madden, who will dispose of the horses he now is raising. Practically all his much has been decided on. Never has broken down again, and Mr. Smith says that the once speedy colt will be retired to the stud as soon as he is able to walk far enough to permit of his being taken to a car for shipment to Lexington, Ky.

Baseball.

THE TRIBUNE is in receipt of the following:

"Through the kind aid of THE TRIBUNE The California Junior Baseball League has prospered beyond our expectations. The Eagles, Y. M. C. A. The Young Mascoets and The Young Manhattans are chosen. The Eagles will now be known as the Oakland; The Y. M. C. A. as Sacramento; The Young Mascoets, San Francisco; and The Young Manhattans, Stockton.

The first game will be played between Oakland and Sacramento at 10 A. M., Saturday, September 22.

"I heartily thank THE TRIBUNE for the kind favor rendered as 'JACKSON J. REYNOLDS, President'.

Manager Ewing is still dickering with 'Billy' Kelly on the proposition of signing him to play third base. Kelly returned lately from Pueblo, where he played shortstop and third in the team of the Western League. At the opening of the season he did splendid work and ranked as one of the best batters in the organization, but he was taken sick and was a long time in recovering. He fears to begin playing right away, because he has not yet accustomed himself to the change from the Colorado climate.

Ewing needs a third baseman badly.

No one need suffer from Indigestion or Dyspepsia. The Bitters is a sure cure for these, as well as for Nervousness, Sleeplessness, Flatulency, or Malaria. Fever and Ague. All druggists sell it.

HOSTETTER'S
CELEBRATED
STOMACH
BITTERS

and Kelly seems capable of filling the bill.

Of the Californians who went to Colorado with Kelly all have returned but Andrews and Anderson. The latter is playing second base for Butte in the Montana League, and Andrews is pitching in Wisconsin. McHale and Graham have been signed by Harper, the former for the outfield and the latter for catcher. Johnson, the sixth member of the California contingent, is here and is out of a job. He is a good pitcher and will very likely be given a place by one of the clubs. Last season he pitched for Scranton in the Atlantic League.

Boxing.

NEW YORK, Sept. 21.—Thomas Sharkey, the sailor pugilist, is after another match with Champion Jeffries.

"I would like to fight Jeffries again," said the sailor. "When I met him last year it took him twenty-five rounds to get the decision and then I was not myself. If Jeffries is ready to come to terms I will deposit a forfeit of \$2,500 at once to bind the match."

When William A. Brady was informed of Sharkey's desire to fight Jeffries he said:

"Why let him fight? There are other good men who come before Sharkey. Just now Jeffries does not intend to fight any one until I find out definitely what Mr. Fitzsimmons intends to do."

Bob Fitzsimmons was at the Clarendon Hotel today, and in reply to a question as to what he proposed to do in the matter of the challenge of William Brady on behalf of Jim Jeffries, he said he had not seen the article in question, and asked its purport.

When told that Brady offered to match Jeffries against him for a side bet of \$2,000 to \$10,000, to present him with \$1,000 on signing articles and \$2,000 more when he stepped into the ring, Fitz said: "You can say for me that I do not propose to be made a cat's paw of by Jeffries so that he can get a little cheap advertising. Now that I have announced my retirement from the ring, he and Brady think that a challenge to me will keep them before the public. Well, they can go to hell. That much, for I cannot stop these foolish challenges from being published, and if newspapers wish to give Brady that much free advertising I cannot help it. One thing I can help, however, and that is the advertising that they would get if I accepted their challenge. They would probably flunk out of it again, anyway."

"No, I have announced my retirement from the ring, and propose to stick to it. Once before I promised Mrs. Fitzsimmons to quit fighting for good and went back on my promise in order to meet Sharkey. I do not again intend to forfeit my word to her. You may say for me that neither Brady nor Jeffries will get any advertising through a match with me."

Cycling.

The five-mile road race under the auspices of Levitt & Bill will take place on the San Leandro road next Sunday morning, starting from High street at 10 o'clock. The following will compete in the event: Otto Puzker, A. Knox, J. Young, H. L. Newsum, W. Lucio, W. Ferris, A. T. Smith, J. Daily, A. W. Duck, F. E. Evans, C. Dorman, J. A. Maurer, L. Thompson, A. C. Smith, G. W. Burns, R. Williamson, H. K. Snow, W. O. Engelow, A. Rose, S. M. J. Madden, A. Roberts, B. W. McKay, F. Hostley.

The following will act as officials of the race: A. C. Banister, Don E. Campbell, Oscar K. Dane, Frank Gordon, George Wyman, H. R. Jackson, L. P. Snow, Archie Mile.

WANTED TO SCOOP THE MAYOR'S SALARY.

Attorney J. B. Richardson and Cary Howard, representing the bondsmen for Mayor Snow when he was City Auditor, before Judge Hall from next Tuesday to November 12th. The grounds upon which they asked the delay was that their associate, W. H. Chickering, had been called to New York.

City Attorney Dow argued against the continuance. He claimed that in the event of a judgment being secured against Mr. Snow it would run against his salary as Mayor, payment of which could be stopped. He asserted that the longer the delay the more the city would have of getting even by such course.

Judge Hall thought that sufficient showing had been made by the defendants' attorneys and granted the continuance.

Theirs Were Not "Love Spats."

Mrs. Annetto Fleming has commenced an action for divorce against Louis E. Fleming. She claims that their married life has been one long series of domestic disputes, and that after trying for four years to agree with Fleming she finds that their tastes, ideas and temper differ so widely that a separation is the only thing that will bring happiness back into her life. She asks for alimony and custody of the child, Florence Fleming, in the employ of the Police and Fire Alarm Telegraph service. Attorney Fred E. Whitney represents Mrs. Fleming.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used for children teething. It soothes the child, cures the gums, allays all pain, cures colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

Company Refuses to Pay.

Sarah Blunt filed suit yesterday afternoon against the Fidelity and Casualty Company for \$2,000. She claims that the defendant corporation issued an accident policy on the life of her husband, John P. Blunt. Blunt met with an accident last April, and the Utah Insure Assurors from the effects of which he died. Claim has been made on the company for the amount of the policy but payment has been refused.

Blunt was a commercial traveler and his home was in Berkeley. He became widely known about a year ago and was committed to prison.

Cutter's Place.

Is cool, restful and a rendezvous for old friends and good liquors. 479 Ninth street.

HIGH SCHOOL

GIRLS TO BE REINSTATED.

Principal M'Chesney Obeys the Order of the Board

The six young girls who were suspended for thirty days last week by Principal J. B. M'Chesney of the High School I will return to school on Monday. A polite and diplomatic way of clearing the incident and at the same time protecting the discipline and authority of Mr. M'Chesney was arranged by the Board of Education and Superintendent McElmonds.

When the suspension was reported the Board and the Superintendent at once decided that the girls should be reinstated, but to do so arbitrarily would be a blow to the principal and might injure the morale of the school.

The Superintendent discussed the matter with the Board and Mr. M'Chesney was "on the carpet" one morning. It was shown that the principal had violated the rule of the Board, but while he is occupying the principal's chair it was decided that a show of upholding his authority must be made.

Finally it was arranged for the girls to write a joint letter of apology to the principal. This the girls readily agreed to do, having already done so in a letter to the principal. It was that of one authority so they wrote the letter. On the order of the Board and the Superintendent Mr. M'Chesney was instructed to accept the apology and reinstate the girls in the school, by order he has forgiven them, invited them to return, and the incident may be considered closed.

A YOUNG PRIEST TO SAY HIS FIRST MASS.

Next Sunday at 10:30 o'clock there will be a solemn high mass in St. Francis de Sales church of which Rev. Thos. McSwaney is the pastor. It will be celebrated by Rev. J. William Brockage, a native of this city. It will be Father Brockage's first mass. The gentleman will be ordained tomorrow in St. Mary's Cathedral, San Francisco.

Mr. Brockage was born in this city, where he attended his public and parochial schools. He went to St. Charles College, Belmont, Cal., in 1891, and two years later returned and finished his classical course at St. Ignatius College in San Francisco. In 1895 he entered St. Mary's Seminary, Baltimore, and after three years was obliged to return home on account of failing health. About this time the college of Menlo Park was preparing to send the Rev. J. K. Walsh to the future of the Archdiocese of San Francisco to complete the theological course. Mr. Brockage has since been appointed to teach in St. Patrick's Seminary at Menlo Park.

Miller Must Answer for Murder.

William Miller was held to answer without bail by Justice Quinn of Pleasanton yesterday on the charge of murder. Charles McFarland, a fellow henchman of Attorney D. M. Conners has been retained by the defendant.

White Iron Beds Only \$2.25.

THIS IS NOT A JOKE

Hundreds of people shivered last night when they entered their homes. It was a cold night—just such a night as makes the ordinary human being like to sit by a warm stove and read for half an hour before retiring. But it is a lot of work to carry up coal and wood, to build a fire, to induce an obstinate chimney to draw well—and it takes time—and it costs money.

HERE IS A SECRET

Don't shiver tonight. Have a neat gas heater put in your room. Then go home strike a match, light your fire, and by the time you have put on your slippers and picked up a magazine the room is warm. Put your fire out at a moment's notice, and there is nothing to clean next morning, and not one cent is wasted. Call and see how it works.

FRIDAY, SEPTEMBER 21, 1900

Hobson appears to be as promiscuous in talking as he is in kissing.

Judging from the way the different fragments of the San Francisco Democracy talk about each other they can be properly described as vulgar fractions.

Notwithstanding his great age, Joaquin Miller could discern no weakening of Li Hung Chang's mental powers. The Chinese statesman was pleased to praise Mr. Miller's poetry.

The knock-down argument is forcible enough, but it is not the best the striking coal miners could use. Their grievances can be settled by the head a great deal better and quicker than by the fist.

It is hardly worth while to dispute about Bryan's Democracy in view of the fact that there are several different brands of Democracy now being floated on the market. All are more or less objectionable.

In his letter of acceptance Bryan says he will not run again. The declaration was unnecessary. The majority against him this time will be so large that no party will have anything to do with him in the future.

The Bryantes are making the disagreeable discovery that Carl Schurz does not carry the German vote in his pocket. It was insulting to the Germans to suppose that he did, but their clamorous assertion that such was the fact made the presumption all the more offensive. The Germans know their own minds as well as any class of voters in the country.

The unwarranted use the Democrats are making of the name of Stanford University is entirely consistent with a campaign conducted on false pretenses, with a bogus issue for a talking horse. The shallowness of the device aptly illustrates the poverty of resource prevailing in the Bryan ranks. It also exposes the low moral tone of their campaign.

The Sacramento lawyer who contended that a convict who had murdered another convict in Folsom Prison could not commit a crime because he was "legally dead" is not deficient in sense or humor. His other contention that the victim being already "legally dead" could not be killed constitutes a syllogism worthy of the comic stage. The learned gentleman should tell his law library and take to the streets. The language will probably make his client appreciate the keenness of the lawyer's attack although it is pointed with a grave termination.

INDUSTRIAL ORGANIZATION EXEMPLIFIED

The perfection to which industrial organization has reached in the United States has been aptly illustrated by the Galveston disaster. Twenty years ago it would have taken weeks to have brought order out of the chaos of destruction. Fifty years ago the task would have required months, and the supplemen-

tal horrors would have killed a third of the storm. It has been less than two weeks since Galveston was almost totally destroyed; the bridges connecting it with the mainland were carried away, water communication broken, and the fighting plant wrecked. The street railway power house was in a state of collapse, and the streets a mass of wreckage filled with the dead bodies of human beings and domestic animals. The wreckage has been largely cleared away or burned; the bodies cremated or buried; and business is being resumed in the ordinary way. The water works have been repaired and the street railways put in running order, while the fighting plant is once more in operation. A temporary bridge has been thrown across the strait separating the island from the mainland, and railway traffic resumed. In the meantime the elevators have been repaired and placed in working order and the wharves are being placed in a condition to handle cotton. In a fortnight the ruined city will be busy again with commerce, while an army of workmen will be engaged in rebuilding on a more substantial basis.

Such a speedy transformation is little short of marvellous. Hardly too much praise can be given the Texas authorities for the prompt and energetic way in which they grasped and met the situation. The plucky spirit exhibited by the citizens of the wrecked city is worthy of admiration. All this would not have availed however but for the swift and generous aid that came pouring in from abroad. This help coming on the instant combined with the indomitable spirit of the people and the vigorous action of the authorities has enabled the city to spring from her ruins chastened and grieved but with a higher courage. The unified forces of modern civilization have wrought this miracle. It is interesting to note how all the forces of society have joined hands to bring it about. Money, charity and energy combined would have been unequal to the task, but for the superb industrial organization which is a distinguishing mark of American life.

LABOR AND POLITICS.

Governor Roosevelt is scoring some telling points when in his trip across the continent he calls the attention of the workmen to the improvement that has taken place in their condition during the past four years, not only from the standpoint of work, but from that of higher wages. Facts of this nature will count a hundred times more than the shallow statements of Bryan, for whereas he is simply indulging in mere diatribes and attacks upon existing conditions, the Republicans are advancing indisputable evidence of what benefits have been brought about by their handling of public affairs.

While perhaps Bryan may have a slight ground for this continuously-repeated declaration that good harvests and not Republic can methods have induced the present prosperity, every intelligent citizen will quickly see that nature has not been our sole benefactor. What more convincing showing of a wise and well-directed administration can be made, for example, than that during the past twelve months our exports have reached the highest point in our history and that we are commercially advancing at so rapid a rate that if the present conditions continue we will ere long wrest the trading supremacy of the world from Europe? What better proof could be obtained either of our national stability and financial firmness than that there is more money per capita in circulation in this country now than ever before, and that instead of having to go to Europe and borrow millions to keep our Government going in times of peace as we did during the Democratic administration immediately preceding the present one, we have, under McKinley, not only defrayed all the expenses of a costly war, but have filled the vaults at Washington and are leading millions to England, Germany and Sweden, all out of our own resources, in addition to spending more money on internal improvements than in any other year in our history!

These are simple facts, but they are the best possible to advance, for they are so patent to everyone that there can be no gainsaying them. In the consideration of the condition of the workingman they play an important part, for it stands to reason that if we are making unprecedently large exports there must be a corresponding activity in our factories and work-shops, labor must be in demand, and wages consequently good. One conclusion corroborates the other and then, as the crowning climax of all, is the acknowledgment by the workmen themselves that they are in far better condition at present than they have been for many years past, so in the light of such a showing the shadows of Bryanism become deeper and gloomier than ever.

A GOOD ROADS CONVENTION.

Those interested in good roads will be pleased to hear that a movement is on foot to hold a national convention in November to which the various States will be requested to send delegates so that the gathering may be thoroughly representative. Judging by the little that has been heard of late regarding this all-important subject, it might be thought that it is languishing and going the way of so many other boom reforms, but such is not the case, for as a matter of fact more activity is being displayed throughout the country on the issue at the present time than at any time since it was inaugurated. Two State good roads conventions are to be held next week, one in Kansas and the other at Springfield, Ill., and will be followed by similar gatherings at Omaha, Neb.; Sioux Falls, South Dakota; Denver, Boice City, Statle, Sacramento and Los Angeles. At these assemblages delegates will be appointed to the national convention and plans framed to be offered as suggestions.

Circumstances have so moulded the good roads question of the years that it can readily be seen that it has more hope of success now than ever before. The great use of the bicycle and the advent of the automobile have brought the subject close to elements that never gave it serious consideration heretofore, and instead of merely farmers and mechanics being principally interested in the outcome, all classes, rich and poor alike, now have something personal at stake. So much pressure has in consequence been brought to bear on the matter that the Federal Government has established an official road bureau under the charge of the Secretary of Agriculture, and at the last session of Congress \$14,000 was appropriated to make necessary investigations. A good road plank figures in the State platform of both the Republican and Democratic parties in California, but the Republicans can be regarded as the real representatives of the movement, for their national platform contains a similar endorsement, whereas the Democratic National Convention refused to espouse the issue. The Republican declaration on the subject is as follows: "Public movements looking to permanent improvement of the roads and highways of the country meet with our cordial approval and we recommend this subject to the earnest consideration of the people and of the Legislatures of the several States."

At the Paris Exposition the American firemen taught the French some very useful lessons in the way of extinguishing fires, which is exceedingly gratifying to our national pride. However, the French are not in so much need of the lessons from the fact that their houses are so constructed that there is little danger of their burning down. We have the most effective methods of fighting fire that the world has ever devised, yet the disagreeable fact remains that there are more destructive fires in the United States than in any other country on earth. If we used half the ingenuity in providing against fire that we expend in extinguishing it the country would save an enormous sum annually in fire losses. Putting out fires is all right, but having no fire is better.

Hobson says that instead of our warships doing the damage, the Spanish sank their own ships in Manila Bay by opening the sea valves. Dewey is not belittled by this statement; however, as might at first glance be supposed; in fact, it furnishes a still greater tribute to the Admiral, for it shows that the Spaniards were so scared of him that they were willing to go to the bottom of the sea to get away from him.

Bryan's bluff that he will not meet Hanna in joint debate on the issue of imperialism but will gladly try conclusions that way with McKinley counts for nothing. The people realize that McKinley has the business of the country to attend to and is better employed looking after their interests in that way than he would be by furnishing the principal attraction at a Bryan meeting.

The gale at Galveston seems to be one of the ill winds that has not blown any one good. There does not seem to be one redeeming feature to offset Governor Sayers' latest statement that 12,000 lives were lost and twenty million dollars' worth of property destroyed.

Wednesday next is the last day upon which you can register. If you have not already attended to this all-important duty do so at once. No true citizen will dodge the obligation of taking a part in determining the policies of the country.

Weather Bureau Director McAdie is going to make a special study of frosts in California. He should enter up in his diary a note to be certain to be at the Democratic State Central Committee headquarters the night of November 6th.

That fake about a secret alliance with Great Britain seems to have been dropped from the list of Democratic stage properties. It was about the cheapest humbug that American politics has ever produced.

It's Time Wasted

And strength wasted, to try to push back the rising tide with a broom. It's just as great a waste of time and a far more serious waste of strength to try to push back the rising tide of disease with the "nervines," "compounds" and "nerve foods" which simply drug the nerves into a drunken stupor. They make you feel good? So does whisky, while the feeling lasts, but the reaction is dangerous and deadly. Dr. Pierce's Golden Medical Discovery is a temperance medicine. It contains no alcohol, opium, cocaine or other narcotic. It strengthens the body by purifying the blood and increasing the supply of that vital fluid. It heals diseases of the stomach and organs of digestion and nutrition and thus removes the obstacles to a perfect nourishment of the whole body.

"Six years ago my stomach and heart troubled me so much I had to do something, as the doctors could not help me. I tried Mrs. A. A. Knapp's 'Golden Medical Discovery' and 'Nerve Food' which cured my stomach. I do not have the pain and indigestion as I did. It is very hard for me to tell you what I suffered before I commenced taking your valuable medicine. I recommended it to all the sufferers whom I meet."

Dr. Pierce's Pleasant Pellets strengthen and stimulate the liver.

PONIA TOWSKI IS FOR PEACE.
Will Not Make War on Oakland Race Track People.

Henceforth there is to be harmony between the owners of the Emeryville track and Prince Poniatowski of Tanforan. After an interview with the Prince in Chicago, the Times-Herald published the following:

"Prince Poniatowski has shown his fiber as a sportsman by announcing that the unfriendly relations between the two tracks he now controls and the California Jockey Club of Oakland shall be discontinued. The Gordian knot was cut by the Prince's willingness to give up the ownership of the Emeryville track, the owner of which Prince Poniatowski believes there is plenty of room for everybody, and Williams, who is a gentleman, holds the same idea. Racing on friendly basis will be a new thing to California turfmen."

"The Prince, who now controls two-thirds of the racing interests near San Francisco, has started out to place the turf on as high a plane in California as it has ever occupied in its history. Having organized one of the best racing circuits in the country, he has come to New York to interest the Whitney's, Jockeys, Belmonts and others in support of his venture. The Prince has already carried out several big enterprises in California, and has confidence in his ability to take racing away from the hands of the present owners and elevate it to a purer sport. He has begun by making a reformation that is bound to strengthen the foundation of all horse racing. By a plan the breeder of thoroughbreds will in every instance receive remuneration for giving the sport a winning horse. He proposes that 5 per cent of the purses in all races over \$500 shall go to the breeder. It has heretofore been the custom to reward breeders only when they had winners in stake races. While this is apparently only a small point in the Prince's racing program, it will likely do more than anything else in building up Western breeding interests. The Prince is anxious that the best horses in the world shall come out of California. He is doing it by a great breeder and already has a large farm of thoroughbreds. He is constantly adding to his number of winners and now has a number of champions, including Mountain View, from William C. Whitney, at a price not made public. He will use Mountain View for racing purposes as soon as the colt has been bred."

PERSONAL

Mr. and Mrs. Ira Bishop of Vernon Heights will spend the winter at the Grandias on Sutter Street, San Francisco.

Mrs. A. A. Bidleman of Jackson street will soon leave for New York to place her daughter Clara in a boarding school.

Mrs. Charles McDermott and the Misses Macdonough have left the farm in New Hampshire for New York. After a two weeks stay there they will sail for Paris.

Mr. and Mrs. William Hackley Taylor have returned from Europe and are at their home on Castro Street.

STUDENTS ARE REPUBLICANS.

The University Voters Form a M'Kinley Club.

UNIVERSITY OF CALIFORNIA, Sept. 21.—A McKinley and Roosevelt campaign club was organized yesterday by the Republican students of the University. The club is to be known as the McKinley Republican Club of the University of California. R. S. Pierce was chosen president, J. M. Lashman secretary and H. Arnold treasurer.

The students at Berkeley enjoy such exceptional opportunities for realizing the benefits of expansion that the majority of them are Republicans. Local Republican students are scarce. The club will make a vigorous campaign. It will make a hold in Berkeley, and the U. S. Republican speakers obtainable will be brought to address the students. Besides this the club will offer its services to the State Central Committee to take tactics in San Francisco and Oakland and to assist in party demonstrations. A large part of its plan is to work with the executives of the State for an increased revenue for the University. Fifty men signed the roll yesterday, and it is expected that the great body of the student voters will join.

The meeting was called to order by H. Lashman, Jr., and J. M. Lashman, Jr. J. W. S. Butler, Jr., S. Pierce and J. L. Steinman. After the organization the following telegram was sent to President McKinley:

"William McKinley, Executive Mansion, Washington, D. C.: The students of the University of California, Berkeley, are proud to announce the organization of the McKinley Republican Club."

An interesting feature of Bulletin No. 51, just issued by the United States Department of Agriculture, which deals with the wheat situation in California, is that the total tonnage of wheat raised in California in 1900 was 1,000,000 tons, and that the total tonnage of wheat raised in the United States in 1900 was 1,000,000 tons.

The report says among other things: "The wheat crop in California is the largest ever raised in the State. The amount of wheat raised in California in 1900 was 1,000,000 tons, and the amount of wheat raised in the United States in 1900 was 1,000,000 tons."

DEATH ROLL AT GALVESTON

Associated Press Dispatches by The Tribune's Special Leased Wire. GALVESTON, Sept. 21.—Following is the death roll of those reported to have died in the Galveston disaster: Mrs. Mary E. Burns, wife and child, John Butterfield, W. A. Dearing, wife and six children, Mrs. Thos. P. Farley, D. L. Gray and five children, Cecil James, Agnes and Lulu, J. Grissel, wife and two children, Ed Groom and wife, Jacob Hillebrand, wife and baby, Mrs. Helen Hoskins, A. Johnson, wife and child, Mike Kelly, August Kessler, Emma Kessler, Mrs. J. K. Kessler, Mrs. L. W. Mann, Mrs. John McCune, Tony Maltzberger and family, Mrs. Minal and three children, Robert Moore, Theodore Muletz, wife and daughter, Willie Myers, George Middleage wife and family, Miss Agnes Pauls, Mrs. Robert Quinn and five children, Miss Helena Ritchie, Annie Robin, colored, Herman Robin, wife and five children, Mrs. Julius Schiller and two children, August and Albert, Edith and Margie Sinnott, Calvin Snipe and daughter, Mrs. J. Sanford Southwick and child, Luvina Teague, colored, and three children, Fred Trebosus, Mrs. John Welch, E. G. Woodward Jr.

PLEASED TO BE RID OF KRUGER.

England Would Have Been Embarrassed By His Capture.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Sept. 21.—A dispatch to the Tribune from London says: The leaders have now taken charge of the political campaign on either side. Lord Salisbury is expected to write a letter to some prominent Unionist candidate, and Mr. Balfour will produce an address within thirty-six hours with official explanations of the government's reasons for appealing to the country. Sir Henry Campbell-Bannerman and Sir William Harcourt are holding back their addresses until the Unionist leaders state the main issues of the election. Probably there will be more life in the opposition campaign next week when these veterans open their attack, but at present the current is strongly Unionist and seems likely to sweep everything before it.

Some uneasiness is shown by the Unionist press over the intervention of the National Protestant League in politics. It is not likely that pressure will be brought to bear upon many candidates during so short a canvass. The anti-Unionist leaders of that movement will be content to concentrate their efforts upon a small number of districts and establish a claim to having donated half a dozen candidates upon the test question of Protestant discipline. If Sir William Harcourt were to emphasize this issue, something might be done with it, but it is not believed that he will reopen the discussion. South Africa holds the field to the exclusion of everything else with annexation as the Unionist method of settlement.

PREDICT DISASTER FOR GRAIN POOL.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Sept. 21.—Members of the grain trade of the New York Produce Exchange are not inclined to record with favor the agreement entered into by the four railroads connecting Buffalo with New York, to pool the grain carrying trade between these two cities. The opinion is expressed that the new traffic arrangement will prove detrimental to the interests of New York, that practically the same cause which led to the abandonment of the Buffalo and Erie Railroad will again operate to dissolve the present pool. The railroads cannot in themselves successfully offset competition of rival pools, particularly that of the Canadian water route, and that the compact to restore and maintain rates from Buffalo to New York, thereby eliminating competition in rates between the two points will only tend to create new competition at other points. Henry Schiller, of the committee of the Produce Exchange, said: "The railroads, in my opinion, cannot offset the competition of rival pools and prevent a diversion of trade. They have not enough cars to move the grain from Buffalo. New York must look to a barge canal to maintain and build up her commerce. With a canal enlarged to dimensions which have been proposed we could bring grain to New York at 1.14 cents a bushel and this seems to me the best solution of the problem."

LI HUNG CHANG REACHES TONG KU.

Associated Press Dispatches by The Tribune's Special Leased Wire. TONG KU, Sept. 21.—Li Hung Chang arrived on Tuesday at the Taku anchorage, where he was visited by Rear Admiral Remy and the Tong Ku captain. He was received with special honors and his presence attracted much attention. Only the Russian and Japanese officers called on him, but later he had a long conference with Vice-Admiral Alexoff on board a Russian warship. Li, accompanied by a Russian guard of seven and his own escort, the latter unarmed, but wearing the Imperial uniform, will proceed by special train to Peking, where his residence has been prepared for his occupancy.

BALLOONIST FALLS TO DEATH.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHICAGO, Sept. 21.—A special to the Times-Herald from St. Joseph, Michigan, says: Prof. L. J. Kahler, a young balloonist, died last night from injuries sustained earlier in the day by a fall from his balloon while making an ascension. A street carnival was in progress and over 5,000 people had gathered to witness the ascension which was one of the feats of the season. The fourth brother who has met death through falling from a balloon.

RAILWAY BLACK-MAILS.

Associated Press Dispatches by The Tribune's Special Leased Wire. DETROIT, Mich., Sept. 21.—The National Association of Railway Master Black-Mails elected the following officers: President, Thomas Lacey, Baltimore; Vice-presidents, William Sawyer, Parkersburg; Milton Rogers, Fitchburg; Secretary, secretary and treasurer, A. L. Woodworth, Lima, Ohio. The next convention will be held in Denver.

COAL COMPANY RAISES WAGES.

The Move Is Expected to Demoralize the Strikers.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Sept. 21.—The Tribune prints the following: The Philadelphia and Reading Coal Company yesterday decided to take a step that will probably do a great deal to bring the coal strike to a speedy termination. That was the determination of the company to raise the wages of its employees 10 per cent. It is understood from advices received from Philadelphia last night that the advance will begin immediately from this morning. In fact, the effect of it up the strike situation will be far-reaching, and according to operators who were seen last night, it will tend to undermine the strength of the whole strike movement. Since 1906 the output of these mines have been restricted because of an agreement entered into by the operators whereby the output of anthracite was divided after the manner of a railroad passenger pool traffic, according to the following percentages: Philadelphia and Reading, 20.5; Lehigh Valley, 15.6; Delaware, Lackawanna and Western, 11.5; Central Railroad of New Jersey, 11.0; Pennsylvania, 11.0; Delaware and Hudson, 3.0; and 13.0 divided among other smaller producers. It is said that these figures, which the Philadelphia and Reading obtained the greatest proportion of the output and with the removal of the restriction which was imposed by the agreement in question, it was admitted by dealers in this city the Reading Company could easily supply at least 50 per cent of the coal necessary for the requirements of this and other Eastern cities. It is said by the contractors with the striking situation, that the Reading Company will not hesitate to break the agreement. In point of fact, the opinion is expressed that operators who mine are closed down are willing that the arrangement for the time being should be set aside and are even parties to the policy of wage increase which has been decided upon.

The motive which induces this attitude, according to report, is that the operators who are mostly involved in the strike, are imbued with the idea that the Reading's output, supplemented as it will be by large quantities of coal from other mines not yet shut down, will serve to avert any really marked coal famine and that thereby the knowledge will be impressed upon the strikers that the anticipated severity of fuel and consequent public suffering will fall of realization. In making the 10 per cent advance in wages the officials of the Reading Company do not take the ground that it is a submission to the demands of the workers. The employees of this company are paid on what is known as the sliding scale, or, in other words, if the selling price of coal advances, the earnings of the miners are increased accordingly.

LI HUNG CHANG REACHES TONG KU.

Associated Press Dispatches by The Tribune's Special Leased Wire. TONG KU, Sept. 21.—Li Hung Chang arrived on Tuesday at the Taku anchorage, where he was visited by Rear Admiral Remy and the Tong Ku captain. He was received with special honors and his presence attracted much attention. Only the Russian and Japanese officers called on him, but later he had a long conference with Vice-Admiral Alexoff on board a Russian warship. Li, accompanied by a Russian guard of seven and his own escort, the latter unarmed, but wearing the Imperial uniform, will proceed by special train to Peking, where his residence has been prepared for his occupancy.

PROSPERITY FOR PORTLAND.

Associated Press Dispatches by The Tribune's Special Leased Wire. PORTLAND, Ore., Sept. 21.—Pending the establishment of the new Oregon line of the O. R. & N. Co., the port of Portland will be afforded better transportation facilities than she has enjoyed for many months. These facilities will be sufficient to bring the flour shipments for this month up to the largest on record. The announcement is made that the steamers Stomphouthville and Skorpene have been put on the line and will run regularly between Portland and the Orient. The flour shipments to Siberia, Japan and China will be increased very largely during the next few months notwithstanding the disturbed condition of affairs.

MINISTERS WANT STRIKE SETTLED.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHICAGO, Sept. 21.—Appeals for intervention in the great anthracite coal miners' strike in the hope of securing an amicable adjustment of the trouble, will be sent Governor Stone of Pennsylvania by nearly every one of the 600 ministers of Chicago. Action looking toward this end was taken at a conference of Oak Lake ministers, and already many ministers have indicated their intention of taking such action. A printed call was also sent to the Chicago ministers, asking them to make the strike a subject of resolutions to be presented to their congregations for adoption Sunday.

HOBSON TALKS OF PHILIPPINES.

He Says the Serious Part of the War Is Over.

Associated Press Dispatches by The Tribune's Special Leased Wire. CHICAGO, Sept. 21.—A special to the Record from Vancouver, B. C., says: Lieutenant Hobson left last evening for Brooklyn. Many persons were at the Canadian Pacific station to shake hands with the American naval officer. Lieutenant Hobson talked freely and expressed the opinion that the serious part of the Philippine war was over; that meritorious warships were up for some time, but that the insurgents were well in hand. He believed the United States had done right in its wars and had acted wisely in restraining the natives with a firm hand. He earnestly expressed himself regarding the defenses in Puget Sound and of the Pacific Coast, and asked many questions regarding the defenses at Esquimaux, with a view, it was thought, of protesting against the possibility of enemies until the Pacific Coast defenses could be materially strengthened.

Again referring to the Philippines, Lieutenant Hobson said: "The United States government has definitely decided to establish dock yards on a large scale in the Philippines. Our new responsibilities make that imperative. We must have facilities in the islands for docking our own ships and repairing the ships of the Japanese navy dock for the Orient. That is all right in its way, but we must have one of our own in that part of the world. One cannot depend on another for that kind of a thing forever."

FRENCH PLAN TO AVOID STRIKES.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Sept. 21.—A dispatch to the Times from Paris says: A ministerial order of interest to Americans now, in view of the strikes in Pennsylvania, has just been issued by the French Minister of Commerce. This decree creates bodies to be known as labor councils, whose purpose it will be to regulate disputes between labor and capital. The councils are to consist of an equal number of workmen and employers, but the workmen must belong to the recognized labor unions. This last clause is likely to create difficulties, as the majority of French laborers do not belong to unions. If this defect can be overcome, it is believed that these councils provide a ready means of settlement of labor disputes, thus avoiding strikes.

HUNTING TRACES OF THE DELUGE.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Sept. 21.—The Rev. Dr. G. S. Gregory, editor of the Homeville Review, has just received a letter from the Rev. Mr. George Frederick Wright of Oberlin College, Ohio, which discloses the object of a trip the professor has started to make through Siberia. He is considered an authority on the glacial period of the earth's geological history, and refuses to accept the theory that the deluge merely submerged the regions round about Palestine. He believes that when the author of the Pentateuch said the waters covered "the face of the earth" he meant it.

STARR KING POPULAR NOVEL EVANGELIST DUE.

This evening at 8 o'clock the Starr King Fraternity will hold its Popular Novel evening. Mr. Gustavus Lane Johnson from the Columbia University, Washington, D. C., will read a critical paper on Winston Churchill's recently dramatized novel "Richard Carfax" as written by Mrs. John Galsworthy. The novel is a study in the life of a man who is a member of a family which has been a member of the aristocracy for many generations. The novel is a study in the life of a man who is a member of a family which has been a member of the aristocracy for many generations.

A large crowd is expected and an excellent program will be rendered.

Skagway Steamer Quarantined.

Associated Press Dispatches by The Tribune's Special Leased Wire. VICTORIA, B. C., Sept. 21.—Upon her arrival from Skagway today the steamer Tere, with 116 passengers, was ordered to quarantine, the purser suffering from illness which looks suspicious. It is not believed to be serious and the steamer will probably be released tomorrow.

BIG SHIPMENTS OF CURRENCY.

Associated Press Dispatches by The Tribune's Special Leased Wire. NEW YORK, Sept. 21.—Currency shipments to the agricultural districts are this week assuming large proportions. The currency transfers at the sub-treasury yesterday amounted to \$15,000, including \$15,000 to New Orleans; \$10,000 to St. Louis; and \$10,000 to Chicago. The total for the week thus far are \$12,250,000. These have been offset by Pacific Coast checks amounting to \$15,155,858. The banks also report large shipments of currency, particularly to the South. One bank on Tuesday shipped \$90,000 to the South, and seven banks have shipped between \$25,000 and \$30,000 the first three days of this week.

WOMEN CREATED BY SHAKESPEARE.

At the Ethel Club last night there was a large audience to hear Wm. Green, lecturer of San Francisco on "The Women of Shakespeare." Among other things the lecturer said: "Coriolanus had more of pathos and chaste fidelity than any of his heroines. Hers was that marvelous womanly strength born of what we call woman's nature. She was a woman, not a man, and she was a woman of the world, familiar with all things in the highest society of her day. Coriolanus will ever stand for the highest type of the intellectual woman, whose passion has governed her passions."

SACRED HEART FAIR A GREAT SUCCESS.

Last night was the greatest since the Sacred Heart Church fair opened. According to the receipts at the door fully one thousand people visited the hall. Thanks are due the Catholic Knights and the generous brothers of St. Mary's College for their great efforts in making the fair such a financial success. The college band was in attendance and pleased the hearts of the large crowd with a number of highly entertaining pieces. The refreshment table was taxed to the utmost. The Catholic Knights
